OC-PBS

The following topics were submitted as OC "Blueplate" candidates for the Agency's Congressional Budget Justification Book: "OC support to the Crisis Response Unit, the record-time

OC-CS

1. A contract has been negotiated with [redacted] for the preparation of an operational plan for a survivable and enduring communications capability using existing communications assets. The term of the contract will be approximately six months.

2. Negotiations were conducted and concluded with [redacted] on 11 September for seven each SC-5 Baseband Bay Integration Kits. The total negotiated amount resulted in a substantial savings.

OC-MPS

1. [redacted] reported to MPS on 8 September, and [redacted] reported for duty with the Staff on 10 September.

OC-AMD

1. The first copies of the OC "Processing Checklist" booklet were received in AMD on 11 September. This booklet was assembled to assist our employees with their assignment processing, particularly those processing for the first time. In a related item, the new covers for the "Field Engineers and Telecommunications Officer Pay Banding" books have also been received. The books are now in the process of being distributed domestically and overseas.

2. [redacted] is being reassigned to the DI effective 22 September, and [redacted] resigned on 12 September [redacted] AMD will certainly miss them both and we wish them well as they pursue their future careers.

3. The Recruitment Section welcomes [redacted] who reported for temporary assignment on 8 September; [redacted] left the Recruitment Section on 10 September for an assignment in OS.

4. FSB has received the latest "status of advances" report from the data base. As of 31 August, OC has 830 advances on the books, of which 274 are delinquent. FSB also plans to send out a computer generated report indicating which individual advances will soon become delinquent. Upon receipt of this report, it is hoped that each individual concerned will quickly attend to his/her accountings in question.

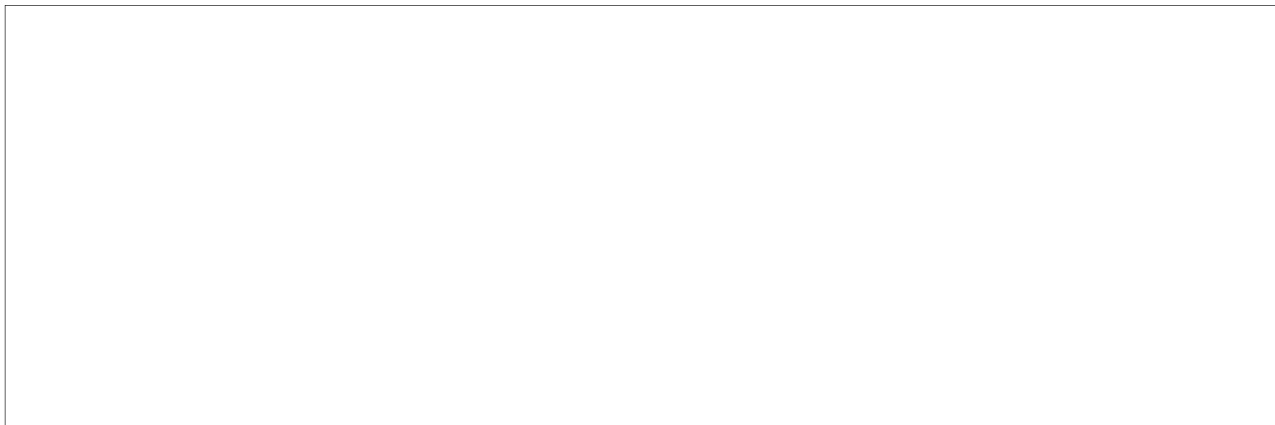

5. The Educational Support Staff hosted a two-day conference of the Agency Television Users' Group on 11-12 September. With the exception of the DO, over 30 people from the other Directorates attended the writing, technical, production seminars, and workshops.

b. Preparation for the first phase of operational-type testing of the Packet Switch System continues with excellent progress being made. Successful interface and operation of a Delta Data through the MERCURY Packet Assembler/Disassembler and packet switch to [redacted] was completed; and numerous virtual circuits have not been established in the packet switch test bed. Software fixes for low speed backbone and excessive flow control problems are now under test with encouraging results thus far.
